BIELORUSIA BISONTE 2022

Belarus is characterized by a Good population of bison, which lives there in huge spaces unspoiled by human hands. Hunting in these conditions for the king of the marshes has a unique character. On the one side , the hunter is delighted with the beauty of wild nature and moose bulls, which are really strong for European conditions, and on the other side hunting in Belarus allows to meet a bygone epoch, because time has stopped there.

BEST DATES:
first half of September or November

Price offer:
6 days of stay, 5 days of hunting, all transports during the hunt, food and accommodation during the hunt, organisation of the hunt, work of guides and other service during the hunting.
*****
I recommend 5 days of hunting because during hunting there may be bad weather or strong wind and then the elk are very careful.

GROUP: 2-4 hunters.
